QUALITY WITHOUT COMPROMISE

Dishwasher Safe

Our extremely high firing temperature allow colors, patterns and design elements to fuse permanently with the body of the product, making it highly resistant to repeated dish washing cycles at any temperature.

Dishwasher Safe High Chip Resistance

The significant composition of high alumina raw material offers strength and resistance against chipping at critical points such as edges of cups, plates and handles. This configuration reinforces the porcelain, reducing risk of breakage and increasing the product's endurance.

Microwave & Salamander Safe

High temperature firing imparts safety from microwave and salamander deterioration.

Sleek & glossy Appearance

The special glaze fired at high temperatures not only gives all our products a smooth and polished finish, but also ensures a non-porous surface for higher levels of hygiene.
